

# PRODUCT BULLETIN

**Date:** November 1, 2018  
**Update Number:** P2018-20  
**Subject:** Stripe Removal on All Linear Actuators  
**Product Affected:** LA400PKG, LA400DC/DCS, LA412PKG, LA412DC/DCS, LA500PKG, LA500DC/DCS

LiftMaster® will be introducing the new Linear Actuator gate operators in Q1 2019. Changes to the new Linear Actuators include:

- Includes NEW! Monitored Retro Reflective Photo Eye (LMRRUL) with new features:
  - Increased beam angle for simple, reliable alignment
  - Built – in heater for dependable performance in most environments
  - Versatile multi-directional bracket for fine alignment and adjustability
  - LED Alignment strength indicator for optimal beam alignment
  - Extended hood for durability and shield from elements
- New! appearance - removal of the burgundy stripes
- New! LA500 light lens - is now frosted and includes an improved sealed gasket for water resistance.

New! Linear Actuator model numbers (LA500PKGUL, LA400PKGUL, LA412PKGUL) will launch in Q1, 2019. The single and secondary arms (LA400DC/S, LA412DC/S, LA500DC/S) will not change model numbers, although they will be transitioned at the same time with the packages to ease the conversion.

Packaging will reflect the above-mentioned changes with necessary indication stickers.
