

PRODUCT CHANGE NOTIFICATION

OMRON E3K-2018

Shipment of the product Model E3K-2018 with a **built in 10K resistor** will begin in August 2018. This change was necessary to comply with the new UL325 requirements effective August 2018.

With the change, the E3K-2018 fully complies with UL325/2018 for gate openers that use the 10K Resistor Method and also the Normally Closed Method. The E3K-2018 has a second relay to accommodate traditional dry contact for non-monitored applications.

With this change you can continue to use the industry's best and most versatile photocell and be in full compliance of the new UL requirements.
