FALCON MOTION DETECTOR

- Mounting height between 11.5' and 23'
- Allows uni or bi-directional sensing, and the unique ability to open a door when traffic is moving away from the sensor
- Sensor also has the ability to differentiate between pedestrians and vehicles
- Can be set vertically from 0 to 180 degrees
- 12/24V AC/DC
- All settings are available directly on the unit or via the remote control
- Remote is sold separately

BEA-10-FALCON

Call for pricing

FALCON-XL MOTION DETECTOR

- Mounting height between 6.5' and 11.5'
- Same features as the Falcon detector, but made specifically for extra low mounting
- Allows uni or bi-directional sensing, and the unique ability to open a door when traffic is moving away from the sensor
- Sensor also has the ability to differentiate between pedestrians and vehicles
- Remote makes it easy to make adjustments to all key parameters of the sensor while at ground level
- Remote is sold separately

BEA-10-FALCN-XL
